

Opera Mobile 9.5

About Opera Mobile 9.5

Opera Mobile is a powerful mobile browser for Windows Mobile and Symbian devices. The latest beta version, Opera Mobile 9.5 Pocket PC is for Windows Mobile devices with touchscreens. This app allows web pages to be viewed fully, and interacted with easily.

Cool Stuff

- Speed tests show Opera Mobile 9.5 beta loads Web pages 2.5 times faster than Internet Explorer Mobile.
- Opera Mobile 9.5 defaults to full Web page viewing and allows users to pan and zoom into their desired content in just a few clicks.
- Save pages & images- With a click, simply save your selected content and view it later offline.
- True Web Experience- Multitask with tabbed browsing, view content in wide screen, and enjoy small-screen rendering.
- Upload Content- Upload to Web sites such as online mail services or blogs.

How Does it Work?

- Starts at an Opera home page.
- Access the address bar and menu by tapping the arrow icon in the bottom right corner. Type in the address you want to go to.
- Zoom in on an area by double tapping the area. Zoom out by doing the same.
- Open new tabs by clicking on the tab icon on the toolbar.

What does it cost?

Free (9.5 ver. Data package recommended)
\$24 for the established 8.6 ver.
